

Cultivate Success

with AirMed Seed-to-Sale Business Solutions

AirMed is Canada's premier solution for managing production, sale and delivery of cannabis.

From the moment genetics enter your facility until the product is delivered, AirMed helps you manage every stage of the process. Our AirMed Ecosystem integrates hardware and software to simplify compliance and give you the tools to increase productivity and profitability.

Why choose AirMed?

Our software has the broadest feature set in the industry including full compliance auditing with built-in Health Canada, CTLS, CRA excise and inventory reports. Don't just take our word for it – contact us today for a demo to see for yourself. But we know it takes more than features and reports to build success. So, we offer hardware, software, integration and a range of other services packaged by dedicated experts for a turn-key solution optimized for your business.

We also listen! That may not sound like a big deal, but our customers tell us that when they need help, they can rely on us to be there for them. In this rapidly evolving industry, knowledge and experience are essential. That's why we've assembled a team of seasoned specialists who understand the challenges you face and go the extra mile. Our dedication to your success results in a partnership approach to our client relationships. This commitment is why there is a growing list of Canadian producers using AirMed.

We've used our experience in other highly regulated industries to create a mission-critical business solution that facilitates compliance and best practices for your cannabis business.
